ISO 45001 Occupational Health and Safety Management System (OHSMS)

Service information sheet. ISO Management Systems. Information checked 11 October 2026.

In brief

ISO 45001 is the international standard for occupational health and safety management systems. It helps organisations prevent injury and ill health through hazard control and worker participation. Accredited ISO 45001 certification also supports Singapore's bizSAFE STAR recognition.

What it is

ISO 45001 sets requirements for an occupational health and safety management system that prevents work-related injury and ill health. In Singapore, SAC-accredited ISO 45001 certification supports the bizSAFE STAR application.

Who it is for

Construction, manufacturing, logistics, facilities and any organisation with significant workplace hazards.

How ICFC helps

Service	What we offer
Audit	Third-party audits: Third-party certification audits for ISO 45001 are delivered by our auditors on behalf of accredited certification bodies. The certificate is issued by the certification body, not by ICFC. Second-party audits: Supplier and partner audits against ISO 45001 on behalf of your organisation, with clear findings you can act on. Internal audits: First-party internal audits of your occupational health and safety by experienced auditors, combinable with other standards in one integrated audit.
Consulting	Funding: We explain which scheme, if any, applies and what it requires before you commit. Non-grant: A fixed-scope engagement: gap assessment, documentation, implementation coaching, internal audit and management review, and support through the formal audit or assessment. How we work: Practical, proportionate systems that your staff can run after we leave.
Training	Classroom: Public and in-house classroom courses on ISO 45001: awareness, implementation and internal auditor levels. Online LMS: Self-paced and live-online courses on the ICFC Digital LMS, with progress tracking and certificates of completion. Funding: Funding depends on each course's approval status, shown on the course page in the LMS.

Funding

Not on the EDGE Standards list. We did not find this standard on the EDGE Standards list when we checked. Ask us about non-grant options or other schemes that may apply.

Impartiality

Impartiality comes first. Every engagement begins with a conflict-of-interest check. We keep consulting and auditing roles separate, and our auditors never audit, on behalf of a certification body, an organisation that ICFC has consulted on the same scope within the period set by that body.

Frequently asked questions

Q. Does ISO 45001 help with bizSAFE?
A. Yes. bizSAFE STAR requires a certified safety and health management system, such as ISO 45001 accredited by SAC or an MRA-recognised body, plus a risk management audit report.

Q. Is ISO 45001 on EDGE?
A. We did not find ISO 45001 on the EDGE Standards list when we checked. Ask us about other options.

Q. Does it cover mental health?
A. Yes. Psychosocial risks are within the scope of occupational health and safety hazards.

Q. Can contractors be included?

A. Yes. Managing contractors and other workers is an explicit part of the standard.
