# SS 668 Cold chain management of chilled and frozen foods

Service information sheet. Singapore Standards and Schemes. Information checked 11 October 2026.

## In brief

SS 668 is the Singapore Standard for cold chain management of chilled and frozen foods. It protects food safety, freshness and quality from storage to retail. Enterprise Singapore lists it under EDGE with up to 50% support for SMEs and 30% for non-SMEs.

## What it is

SS 668 sets top-level requirements for managing the cold chain for chilled and frozen foods, plus technical requirements for operations, cold rooms, transport, packaging, labelling and retail.

## Who it is for

Food importers, cold stores, logistics operators, distributors and retailers handling chilled or frozen food.

## How ICFC helps

| Service | What we offer |
|---|---|
| Audit | Third-party audits: Third-party certification audits for SS 668 are delivered by our auditors on behalf of accredited certification bodies. The certificate is issued by the certification body, not by ICFC. Second-party audits: Supplier and partner audits against SS 668 on behalf of your organisation, with clear findings you can act on. Internal audits: First-party internal audits of your cold chain management by experienced auditors, combinable with other standards in one integrated audit. |
| Consulting | Grant-supported (EDGE): ICFC's consultancy is led by consultants certified to SS 680:2021, which Enterprise Singapore requires for consultancy support under EDGE Standards activities. The certification is held by our individual consultants, not by ICFC as a company. Our proposal names the certified consultant who will lead your project and includes the SS 680 certification details, quotation and scope that EDGE asks for. You apply on the Business Grants Portal before any work starts or any payment is made. Vendors cannot apply, pay or claim for you, the consultant named in the Letter of Offer must bill the claim invoices, and vendors cannot be changed after approval. Support is subject to Enterprise Singapore's assessment and approval. For our SS 680 certified consultants' roles, certificate numbers, issuing body and expiry dates, or a link to the issuing body's register, please email us through the contact form. Non-grant: A fixed-scope engagement: gap assessment, documentation, implementation coaching, internal audit and management review, and support through the formal audit or assessment. How we work: Practical, proportionate systems that your staff can run after we leave. |
| Training | Classroom: Public and in-house classroom courses on SS 668: awareness, implementation and internal auditor levels. Online LMS: Self-paced and live-online courses on the ICFC Digital LMS, with progress tracking and certificates of completion. Funding: Funding depends on each course's approval status, shown on the course page in the LMS. |

## Funding

**Listed under EDGE Standards (confirmed).** Enterprise Singapore lists this standard under the EDGE Grant. Support is up to 50% for SMEs and up to 30% for non-SMEs, covering professional services and first-year certification by an accredited body. It counts toward the shared S$100,000 annual EDGE cap.

## Impartiality

Impartiality comes first. Every engagement begins with a conflict-of-interest check. We keep consulting and auditing roles separate, and our auditors never audit, on behalf of a certification body, an organisation that ICFC has consulted on the same scope within the period set by that body.

## Frequently asked questions

**Q.** Which businesses does SS 668 cover?
**A.** Agriculture, food and beverage, land transport, logistics and wholesale businesses in the food cold chain.

**Q.** Is SS 668 on EDGE?

**A.** Yes. It is listed under EDGE Sector-specific Standards with up to 50% support for SMEs and 30% for non-SMEs.

**Q.** Does it require temperature monitoring?
**A.** Yes. Monitoring and records across storage and transport are central to the standard.

**Q.** Can it integrate with food safety systems?
**A.** Yes. It complements existing food safety and quality systems.
